1. What is your connection or interest in this case? * For example, are you a customer of the Company that is the subject of this pending proceeding? (This section must be completed. Attach additional information if necessary.)

Unfortunately a customer of SCE&G.

2. Please give a concise statement of your protest. * (This section must be completed. Attach additional information if necessary.)

It would appear that once again the Public Service Commission is about to approve another hike in prices, as they have done each year for as long as we have been residents in Charleston. It would appear the "Public" part of your title is a misnomer as you have done little to assist the public in these times of severe economic problems for all SC residents. SCE&G has a monopoly so it is up to the Public Service Commission to defend us, and not year after year approve onerous rate increases. Try saying "NO" to SCE&G for a change instead of using this negotiating ploy where you "do battle" to reduce a rate increase. An increase is an increase! We can't control how SCE&G does business, and therefore should not be expected to finance their grandiose power projects. SCE&G show an increase in annual profits year after year, let them use some of their profits instead of ripping off their customers. If you don't stop these continued increases you had better change your mission statement, because it is totally inaccurate.

3. Do you wish to make an appearance at a hearing in this proceeding, if scheduled, and offer sworn testimony? *

No, but you may use my complaint at this any other hearings.
